Experience

AI Nada International Exchange

August 2023 – Present

Frontend Developer

Kuwait City, Kuwait

- Architected and led the development of the **AI Nada Exchange App** from scratch using **React Native Expo**, implementing complex transaction flows and international beneficiary management.
- Spearheaded the creation of an internal **HR Management System** from the ground up, utilizing **Next.js** and implementing a **Face Recognition** attendance module for automated employee check-ins.
- Developed and optimized the **AI Nada Exchange Website** and a dedicated **Rate Display Website**, ensuring high performance and SEO-friendly architectures.
- Engineered a specialized **Tablet Application** for in-branch use, providing real-time exchange rate updates and information reflection for customers via **Socket.io**.
- Contributed to the modernization of the **Exchange Core System** frontend, enhancing internal operational efficiency and transaction processing speed.
- Managed full app lifecycle deployment, including **Android Manifest** compliance for API 33+ and advertising ID declarations on Google Play Console.

Taqanal Energy Pvt. Ltd

July 2022 – May 2023

Frontend Developer Intern

Bengaluru, India

- Built a data-heavy energy monitoring dashboard with **React.js**, focusing on real-time graphing and interactive reporting tools for field data.
- Developed and documented a scalable **REST API** using the **Loopback** framework to bridge communication between the web dashboard and mobile clients.
- Launched a **React Native** mobile application designed for remote personnel to log energy metrics and sync data in low-connectivity environments.

OrangeFox

January 2022 – April 2022

Frontend Developer Intern

Mumbai, India

- Delivered custom-built web interfaces for a variety of client projects using **React.js**, ensuring each solution was tailored to specific business logic and branding.
- Implemented global state management using **Redux.js** to handle complex data flows and ensure state persistence across dynamic user sessions.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Technologies: React.js, React Native, Next.js, Expo, Redux.js, Superbase, Node.js, Loopback, REST APIs, Socket.io, Firebase, Sanity CMS, Stripe, Tailwind CSS, Bootstrap

Tools & Platforms: Git, GitHub, Google Play Console, Android SDK, iOS SDK, Vercel, Expo Application Services (EAS),

Concepts: Cross-Platform Mobile Development, Server-Side Rendering (SSR), State Management, Real-time Data Synchronization, API Documentation, Responsive Web Design, Atomic Design

Projects

AI Nada Exchange Mobile App | React Native, Expo, Redux, REST APIs

- Built a comprehensive fintech application from scratch to facilitate secure international money transfers and real-time beneficiary management[cite: 64].

HR Management System (HRMS) | Next.js, Face Recognition, Tailwind CSS

- Developed a centralized internal platform from the ground up featuring automated attendance tracking via a custom-built face recognition module[cite: 65].

Education

Pacific University

August 2019 – June 2023

Bachelor of Technology in Computer Science

Udaipur, India

- Relevant Coursework:** Data Structures and Algorithms, Responsive Web Design, Programming for the Web with JavaScript, Computer Science Fundamentals.
